Notes:

- Data for 2013/14 cannot be provided due to database split at the time
- 'Care Type' history is unable to be logged on the database, therefore figures above are a snapshot i.e. what is entered in the database field now
- 2016/17 data is as per the database when the report was produced i.e. up to 31/08/16 - financial figures have been calculated upto this date
- package length is based on the total number of weeks each package is in place over each financial year, divided by number of packages each year (determined by MH section)
