## **Re: Freedom of Information Request**

Thank you for your request for information made under the Freedom of Information Act 2000 which was received into this office on 23<sup>rd</sup> May 2018.

### **You Asked for:**

How much money has been invested on the Docman 10 project to date?

### **Our Response:**

NHS Wirral Clinical Commissioning Group (CCG) and GP Practices have embarked on an ambitious journey to improve and simplify their IT estate and environment during 2018/19. A key component of this investment is the Docman 10 Upgrade project. The principal aim of the project is to implement a hosted document management solution using the PCTi Docman Share solution as a starting point and migrating across all GP practices within the boundary of NHS Wirral CCG to the Docman 10 Cloud Solution. The practices and federated services within NHS Wirral CCG are moving to a more agile workforce where access to hosted solutions will support access to patient information at the point of care.

NHS Wirral CCG was successful in securing full-funding through the EETF (Estates & Technology Transformation Fund) from NHS England. The total investment for this project is £116,480.51, which is comprised of £79,500 for PCTi technical migration/ implementation services and £36,980.51 for Midlands and Lancashire CSU project management and application/ technical support.

We hope this information is useful, however if you require any further information please do not hesitate to contact a member of the Corporate Affairs Team (contact details at the top of this letter)

Yours sincerely

## Re- Use of Information

Most of the information that we provide in response to Freedom of Information Act 2000 requests will be subject to copyright protection. In most cases the copyright will be owned by Wirral Clinical Commissioning Group. The copyright in other information may be owned by another person or organisation, as indicated on the information itself.

You are free to use any information supplied for your own non-commercial research or private study purposes. The information may also be used for any other purpose allowed by a limitation or exception in copyright law, such as news reporting.
