

Re: Trade Union Facility Time

NHS Wirral CCG is wholly supportive of partnership working and as such is part of the Staff Partnership Forum facilitated by NHS Midlands and Lancashire Commissioning Support Unit.

The CCG can utilise this forum as a vehicle and mechanism to support proactive staff engagement, consultation and, where appropriate, negotiation.

The CCG does not employ anyone who undertakes relevant union official duties as outlined in the Trade Union (Facility Time Publication Requirements) Regulations 2017 and therefore no time is released from this employer in relation to official duties.

The CCG can liaise and work with CSU TU representatives and area/regional representatives from those recognised unions, when appropriate, whose time will be recorded with their employing authority.
