Re: Freedom of Information Request - Integrated Care Systems (ICS)

Thank you for your request for information made under the Freedom of Information Act 2000, which was received into this office on the 16th May 2022.

You Asked for:

I am writing to you because we are collecting information about integrating the data in the different Integrated Care Systems (ICS) in England.

Unfortunately, I could not get this information through your website. For that reason, I was wondering if your ICS has established any data platform or collaboration platform to integrate the data.

Our Response:

Cheshire and Merseyside have established a data integration platform that integrates health and care data for the purposes of Population Health known as Combined Intelligence for Population Health Action (CIPHA).

There are also Shared Care Records in place that integrate Health and Care data for the purposes of Direct Care in Wirral, Cheshire and St Helen's, with the capability to expand this to the other places within the Integrated Care System (ICS).

We hope this information is useful, however, if you require any further information, please do not hesitate to contact a member of the Corporate Affairs Team, (contact details at the top of this letter).
