Re: Freedom of Information Request - Annual expenditures for mental and physical health community nursing and residential care home services

Thank you for your request for information made under the Freedom of Information Act 2000, which was received into this office on the 28th April 2022.

You Asked for:

Total annual expenditures for:

1. Acquires brain injuries
2. Neurodegenerative diseases
3. Cognitive disorders
4. Psychotic and personality disorders
5. Learning disabilities and Autism Spectrum Disorder
6. Physical disabilities

Our Response:

I can confirm that NHS Wirral Clinical Commissioning Group (CCG) does hold this information, however, we are not able to provide a full response as the database in which this information is recorded is not yet able to filter information in regards to the severity of each domain, meaning that all case notes for each patient held on file from 2016, would need to be accessed and recorded individually. Therefore, this information is exempt under Section 16 of the FOIA, in relation to where cost of compliance exceeds an appropriate limit of 18 hours per request.

However, we would be to provide an overall annual expenditure for all mental and physical health community nursing and residential care home services from 2018, as this would be within the appropriate time limit request.

If you would like to receive the information, can you please confirm this by return email?

We hope this information is useful, however, if you require any further information, please do not hesitate to contact a member of the Corporate Affairs Team, (contact details at the top of this letter).

Re- Use of Information

Most of the information that we provide in response to Freedom of Information Act 2000 requests will be subject to copyright protection. In most cases the copyright will be owned by Wirral Clinical Commissioning Group. The copyright in other information may be owned by another person or organisation, as indicated on the information itself.

You are free to use any information supplied for your own non-commercial research or private study purposes. The information may also be used for any other purpose allowed by a limitation or exception in copyright law, such as news reporting. However, any other type of re-use, for example by publishing the information in analogue or digital form, including on the internet, will require the permission of the copyright owner.
